

“Safer at Home” Mask Requirement Frequently Asked Questions

1. When do I have to wear a mask?

You have to wear a mask when you are in public and in close contact with other people. Specifically, the order says to wear a mask when you are within six feet of a person from another household in any of the following places: (a) an indoor space open to the public; (b) a vehicle operated by a transportation service; and (c) an outdoor public space where ten or more people are gathered. **This requirement does not apply at our pools, lazy river, water slides, or the beach according to the “Safer at Home Order”.** However, six foot social distancing is still mandated by the state of Alabama.

2. Do I have to wear a mask in my Condo?

You are only asked to wear a mask when you are within six feet of a person from another household. As long as your unit is not open to the public you are within your rights not to wear a mask.

3. What kind of face mask is required?

The requirement allows all kinds of masks to be used—whether store-bought, homemade, or improvised from household items like scarves, bandannas, or t-shirts. The key is for the mask to cover your nostrils and mouth. For instructions on how to make your own mask, please refer to the CDC’s website.

4. How long will the new mask requirement be in effect?

The new mask requirement goes into effect Thursday, July 16, 2020 at 5:00 p.m. It is currently set to expire on July 31, 2020.

5. Will the resort provide masks?

All guests will be required to provide their own masks for the duration of their stay.
